

Roadmap – SlenosVibe

Q1 2025 – Prototyping Completed

Development of initial platform prototype
Licensing marketplace MVP with offer system
Email notifications for license requests

Q2 2025 – Token & Smart Contracts

Integration of SVIBE as a payment token
Smart contract-based music licensing
Initial wallet and payment system integration
Whitelist registration and IDO on ChainGPT Pad
Legal & MiCAR compliance finalized

Q3 2025 – TGE & Public Launch

Token Generation Event (TGE)
Launch of liquidity pools (SVIBE/USDT, SVIBE/CGPT)
Trading starts on DEXs (Trader Joe, Pangolin)
Marketplace release with full NFT licensing flow
Airdrop & referral program activation

Q4 2025 – Post-Launch Expansion

Audio file management (upload, streaming, format conversion)
Launch of staking & reward pools (SVIBEalties)
Onboarding of artists & music labels
Community-driven governance model (DAO initiation)

2026 – Ecosystem Growth

Integration with external NFT/music marketplaces
Mobile app development
Licensing API for third-party platforms
Artist analytics dashboards & monetization insights
DAO governance for treasury and feature proposals
