SlenosVibe

The Decentralized Music Licensing Infrastructure

🌍 www.slenosvibe.com

✉ hello@slenos.com

🚀 Launching on Avalaunch – Q2 2025

The Problem

Music licensing is broken.

- **Complex, expensive, and slow**

- **Artists lose control of their rights**

- **Heavy dependence on intermediaries**

- **Royalties distribution lacks transparency**

Our Solution

SlenosVibe simplifies music licensing with blockchain.

- **Rights certification**

- **Smart contracts for licensing deals**

- **Real-time royalty distribution**

- **100% on-chain traceability**

- **Built for music professionals**

B2B Differentiation: We're not another NFT music project.

Most platforms are B2C – selling songs to fans or raising via crowdfunding.

SlenosVibe is B2B: a decentralized infrastructure for artists, labels, publishers, sync platforms.

Feature	SlenosVibe (B2B)	Typical NFT Projects (B2C)
Target Audience	Professionals	Fans, Collectors
NFT = Legal License	✅ Yes	❌ Often not
Monetization	Usage Rights	Collectibles/Crowdfunding
Licensing Tools	✅ Smart Contracts	❌ Rarely Available

Product Preview: One platform. Full control.

- **Create legal protection for your track with ISRC metadata**

- **Create smart contract licenses with your terms**

- **Receive royalties automatically**

- **Manage deals from your dashboard**

Take a look at the prototype:
www.slenosvibe.com

How It Works.

Upload
Tracks, authors, musicians, singers the more we are, the better.

Create the licence
In a NFT in the blockchain
Grant it to the licensee
Safety and transparency

Collect the royalties
The smart contract is there: no stress

Take a look at the prototype:

SVIBE Token Utility: SVIBE powers the SlenosVibe ecosystem.

- **Licensing payments**
- **Track registration & NFT minting**
- **Access to premium features**
- **Platform governance (future DAO)**
- **Staking rewards (in roadmap)**

Tokenomics

Category	Allocation (%)	Vesting
IDO Participants	50%	25% to TGE, then 25% per month for 3 months
Team & Development	20%	Lock 12 months, then 5% per month
Liquidity Pool	10%	Immediate allocation
Marketing & Growth	10%	Released based on milestones
Referral Program	5%	Distributed through incentive model
Reserve / Ecosystem DAO	5%	Locked, usable for future governance/staking

Fundraising Goal:

$300,000

Token Price: $0.06

Soft Cap: $150,000

Breakdown of fund allocation

Category	Amount ($)	Estimated Allocation (%)
Infrastructure & Development	93.000,00	31,00%
IDO & Platform Fees	24.000,00	8,00%
Smart Contract Audit & Security	18.000,00	6,00%
Legal & Compliance	30.000,00	10,00%
Marketing & Community	27.000,00	9,00%
Artists & Content Acquisition	21.000,00	7,00%
Buy Back & Burn	18.000,00	6,00%
Liquidity Provision (DEX)	30.000,00	10,00%
Emergency Liquidity & Insurance Fund	15.000,00	5,00%
Referral Pool	9.000,00	3,00%
Operational Costs	15.000,00	5,00%
Total	**300.000,00**	**100,00%**

Fundraising Goal:

$300,000

Token Price: $0.06

Soft Cap: $150,000

Roadmap

- **Q1 2025 – MVP with NFT Licensing Module**

- **Q2 2025 – Wallet onboarding, IDO on Avalaunch**

- **Q3 2025 – TGE + DEX Listing (Trader Joe, Pangolin)**

- **Future – Streaming, analytics dashboard, developer APIs**

Team

Andrea Cesaretti – *Founder & Legal Architect*

Economist, FinTech professor, expert in tokenization and digital copyright law.
Musician, DJ, and founder of Slenos Srl, with decades of experience in corporate governance and blockchain regulation (MiCAR).
🎓 Former lecturer in Tech Finance @ Catholic University of Milan
📚 Author of "Bitcoin: The Money That Does Not Obey" (2025)

Mirco Spadazzi – *Sales & Business Development*

30+ years in B2B negotiation, insurance & fintech sales, and regulated markets.
Advisor and certified expert for national courts and fintech platforms.
Focused on strategic partnerships in the music and publishing industries.
 Former Sales Manager @ MP Group

Ludovica Cesaretti – *Creative Director & Visual Identity*

Multimedia artist and visual designer for top European music labels.
Graduated in Special Effects for Cinema in London.
Leads the visual identity and UX of SlenosVibe, blending blockchain and creative culture.

Galaxia Digital – *Technical Partner*

Web3 development agency specializing in smart contracts, tokenomics, and NFT-based platforms. Partner for contract architecture, audits, and DApp integration.

Why Join Now?

- **Real use-case for the music industry**

- **B2B focus: professional, scalable, sustainable**

- **Fully transparent tokenomics**

- **Refundable smart contract if soft cap not met**

- **Strong team, regulatory compliance**

👉 *Be part of the music licensing revolution.*
